**Subject:** RE: I oppose Duke's latest rate hike for dirty energy

Dear Maja Kricker,

This is to acknowledge receipt of your email to the Public Service Commission of South Carolina. I am forwarding your email to our Clerk's Office for processing. Your email will become a part of Docket No. 2013-59-E and will be posted on our website under this docket.

Please let me know if you should require any additional information.

Sincerely,

Deborah Easterling  
Administrative Assistant

Subject: I oppose Duke's latest rate hike for dirty energy

Apr 21, 2013

South Carolina Public Service Commission

Dear Public Service Commission,

Duke should stop investing in dirty, obsolete energy technologies like coal and nuclear, and actually invest in the cheaper renewable technologies its executives claim to support. I want the Carolinas to be more energy efficient and powered by local wind & solar that will employ thousands of Carolinians.

We need and deserve clean energy jobs that will be healthy for energy workers. These jobs are wonderful for local economies and will enhance our communities. We need and deserve clean energy that will preserve the health of our children and seniors. We need to invest in North Carolina's future; we do not need to support bad business models that increase pollution and increase health problems such as asthma and heart disease.

Let's stop throwing money at any corporation that whines for excessive profits at the expense of our citizens and create a ten year plan for North Carolina's energy needs that uses the latest, best technologies and business models that will help local economies and give our communities clean air and water and energy. Let's build a North Carolina we can all be proud of by sending Duke Energy a clear message that it needs to be a good neighbor and corporate citizen. I am asking you to not approve a rate hike for Duke Energy.

Sincerely,

Maja Kricker
